

# RESIDENT'S HANDBOOK

2024 - 2025

## Leisure Village West Association

Dear Resident:

This Handbook contains a quick reference to the Rules and Regulations, services, and other pertinent information governing the day-by-day operation of Leisure Village West. It is to be used in conjunction with, and as a supplement to, the governing documents. For clarification of any of our policies, please contact the Association Office.

Leisure Village West is an age-restricted condominium association. As such, we residents gain the benefit of having much of the work of home maintenance and management done for us, **but we sacrifice a certain amount of individual control.** Condominium rules are intended to benefit residents and to preserve the safe and attractive environment that perhaps motivated your decision to move to Leisure Village West.

A Board of Trustees, elected by the unit owners, and the Community Manager are responsible for the administration of Leisure Village West and for insuring that the requirements of the Master Deed and By-Laws are not violated. Rules do change from time to time, so please consult the on-line, live version.

Very truly yours,

BOARD OF TRUSTEES

Revised: April 2024

## Administration of the Village

---

All operating, maintenance and financial functions of the Village are under the direction of a Board of Trustees, consisting of 7 elected resident unit owners. The election of Trustees takes place in August. Unit owners in good standing are eligible to vote. Rules and recommendations for Village activities are prepared by resident committees and authorized by the Trustees. A professional staff under the direction of the Community Manager is employed by the Association to administer the affairs of the Leisure Village West Association and its entire property for the benefit of all residents.

### *Holding Office, Chairmanship, Committee Membership*

*Only resident owners, in good standing, may hold any office and/or serve on any committee.*

### *Advisory Council*

The Council is appointed and authorized by the Board of Trustees of Leisure Village West to advise and assist the Board with wide-ranging, general policies, issues and problems which cross the operating lines of the standing committee.

The Council is composed of the Chairs of the standing committee. The Council is chaired by a resident selected by the President of the Association and approved by the Board.

### *Committees*

- Administration Committee
- Architectural Committee
- Finance Committee

If the Community Manager does not resolve the issue, contact the Association Office for information regarding the Alternative Dispute Resolution (ADR) section.

### *Workshop Meetings*

Trustees, management, and guests meet for information sharing only to prepare for Board of Trustee meeting; no minutes are taken. These meetings are expected to be held prior to the Board Meeting; moreover, any principal information shall ultimately be made ready for full disclosure to the resident body. On occasion, a workshop session may be scheduled spontaneously for an urgent matter and therefore not according to a regular schedule. ### For the purpose of this policy: Definitions;

- **Service Animals:** are defined as any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. A service animal is NOT a pet. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual's disability.
- **Assistance Animals:** are defined as animals that do work, perform tasks, provide assistance, or provide emotional support for a person with a physical or mental impairment that substantially limits at least one major life activity or bodily function. An Assistance animal is NOT a pet. Animals that are "assistance animals" providing a non-service-related medical benefit to a resident and "service animals" incorporated under the "Fair Housing Act" (FHAct) as "assistance animals" shall be permitted within the Community upon the following conditions. The resident seeking to maintain the assistance animal shall submit an application to the Association's Community Manager along with documentation from a health care professional that confirms my disability, describes the requested accommodation, and shows the relationship between the disability and the need for the accommodation.

Included with the application, the resident must provide the following documentation that;

- (A) Verification that the resident meets the Fair Housing Act's definition of disability.
- (B) Describes the needed accommodation.
- (C) Shows the relationship between the resident's disability and the need for the requested accommodations.

- **Pets:** are defined as a domesticated animal, such as a dog, cat, bird, rodent (including a rabbit), fish, or turtle, that is traditionally kept in the home for pleasure rather than for commercial purposes. Common household pet does not include reptiles (except turtles).

### Service and or Assistance animals only:

1. All Service and Assistance animals must be registered with the Association before admittance to community buildings or pet restricted common elements.
2. Upon the death or removal of a Service or Assistance animal, the reasonable accommodation request for the animal shall be deemed canceled and/or withdrawn. Prior to obtaining a new service or assistance animal, the resident must re-apply pursuant to the procedures outlined above.

Any damage caused to the common elements by any animal will be the responsibility of the unit owner of the unit in which the animal resides. All resident I. D's, transponders and privileges to use the facilities (with the exception of voting rights) convert to the tenant. The owner forfeits these rights as there must never be a dual use of the resident I.D, transponders, etc.

Voting rights can be exercised by tenants only if the owner submits permission in writing to the Association Office.

A copy of the rental agreement or lease must, in all instances, be filed with the Association Office prior to occupancy by the tenant.

It is recommended that the policy provide sufficient coverage to insure the Association's insurance deductible and to provide sufficient coverage for the full value of the tenant's personal property stored within the Unit. The lease shall further provide that any failure to obtain and maintain said policy shall constitute a material default under the lease and be grounds for termination and eviction. Any Unit Owner who rents their unit must provide the Association with a copy of the tenant's insurance policy declaration page.

### *Leasing Permit*

A Unit Owner desiring to lease his or her Unit may do so only if the Unit Owner has received a permit to do so from the Association (a "Leasing Permit"). All Leasing Permits shall be valid only as to the particular Unit Owner, Unit, tenant, and lease to which they are issued and shall not be transferable between Unit Owners or Units or tenants or leases. Leasing Permits are not currently issued and in effect for eight percent (8%) or more Units within the Association. Any Unit Owner who wishes to obtain a Leasing Permit, but cannot because the maximum number of Leasing Permits are already issued may be placed upon a waiting list. ## HO-6 Insurance

---

The Association maintains a master policy to insure the common elements and all buildings and equipment owned by the Association.

In accordance with your Association's governing documents, all buildings, comprising Leisure Village West Association are insured on an "Original Specifications" basis with a Replacement Cost valuation provision. Put simply, this means that each unit is covered in its entirety in accordance with the **builder's original specifications** subject to the policy limit (less any applicable deductible). Deductibles are applied on a per occurrence basis (currently \$10,000). The Association's master policy is not intended to cover personal property, loss of use (temporary rental assistance), loss assessment, upgrades or improvements made by any unit owners (past or present), or their personal liability. It is highly recommended that each owner and/or tenant consult with their insurance professional and provide them with the above information when determining their personal needs.

The information in this Resident Handbook is a general rather than a specific statement. A copy of the declaration page of the Master Policy can be obtained from the insurance agent for Leisure Village West.

All Unit Owners shall obtain and maintain an "H06" condominium insurance policy with sufficient coverage including any upgrades thereto, the Association's insurance deductible, and it is recommended that the policy provide sufficient coverage for all personal property stored within the Unit.

All Unit Owners who rent their Units shall, as part of the lease agreement, require the tenant(s) to obtain and maintain an "H04" renter's insurance policy with at least \$300,000 in liability coverage. It is recommended that the policy provide sufficient coverage to insure the Association's insurance deductible and to provide sufficient coverage for the full value of the tenant's personal property stored within the Unit. The lease shall further provide that any failure to obtain and maintain said policy shall constitute a material default under the lease and be grounds for termination and eviction. Any Unit Owner who rents their unit must provide the Association with a copy of the tenant's insurance policy declaration page.

All Unit Owner's and Renter's policies shall include a waiver of subrogation.

All Unit Owners applying for a Rental Permit shall provide to the Association office with proof of his or her current insurance policy and shall provide an "H04" renter's insurance policy with sufficient coverage as described above. Thereafter, proof of continued insurance shall be provided to the Association annually and upon each lease renewal in a form acceptable to the Association.

If any Unit is damaged or destroyed by fire or other casualty, the Unit Owner shall promptly restore the Unit to its condition preceding the fire or casualty.

In addition to the above it is recommended that unit owners purchase HO6 insurance to cover the following:

- Personal items (floor coverings, furniture, jewelry, etc.)
- Upgraded appliances and/or fixtures
- Personal items in the 5-foot area
- Personal vehicles and RVs on the property
- Additional living expenses for temporary shelter of at least 12 months
- Personal liability insurance for accidents occurring inside the unit
- Loss assessment coverage (i.e., the Master Policy \$10,000 deductible)
- Workers' Compensation

<i>Dishwasher</i>	Use Automatic dishwasher detergent only. Water in well on bottom of unit at rear is supposed to be there to operate efficiently.
<i>Stove</i>	See Owner Manual as your description may be different.  Clean range hood filters in detergent monthly to avoid possible fire.  Do not use oven cleaners to clean a self-cleaning oven. Let disposal churn, turn switch off, and then let water run a few seconds before turning water off. ## For Your Safety

---

- Smoke Dectector** All units are required by New Jersey State law to have a smoke detector. For best protection, both ionization and photoelectric alarms should be installed. Combination alarms that include both technologies in a single device are available. Follow the manufacturer’s instructions for placement and mounting height.
- Carbon Monoxide** All units are required by New Jersey State law to have a carbon monoxide detector which should be installed in a central location outside each sleeping area.

**It is suggested that residents test all alarms monthly by pushing the test button. Batteries should be replaced annually. It is recommended to change your devices every 7 to 10 years or in accordance with the manufacturer’s guidelines.**

- Fire Extinguisher** A fire extinguisher, also required by Manchester Township, should be mounted in an area easily accessible to the kitchen and/or the garage. If you have to use it, remember to keep your back to an exit so that you have a way to escape in the event that the fire cannot be controlled.

- Washing Machine** Faucets should be turned off when not in use. Water pressure could cause the hose to burst. Any flooding damage because of forgetfulness is the resident’s responsibility.

- Clothes Dryer** Clean filter after each dryer load; also clean inside door to prevent a fire. If drying time seems excessive, call the Maintenance Department for service.

- Other Electric** Disconnect TV cable, stereo, computers and other electronic equipment during an active lightning storm or when one is forecast.

- Portable Gas Grill** **NJ State Law requires that gas grills must be at least 10 feet away from the unit, and propane tanks are not to be stored within the unit or in the garage at any time.**

- Gas Grill** Propane or Natural Gas grills must be at least 10 feet away from a unit wall and fence (NJ State Law). The grill must be placed on a solid base. Extra propane tanks must be placed adjacent to the grill within the parameters stated above. **Propane tanks must not be stored in the garage or in the unit.** A storage area for propane tanks is available in the Maintenance Yard. Smoker grills and charcoal grills are prohibited.

- Fire Tables** Portable Propane Fire Tables, no greater than 10 square feet in size, between 18 inches and 30 inches in height, and must be at least 10 feet away from a unit wall and fence (NJ State Law). **Propane tanks must not be stored in the garage or in the unit.** *Wood burning or petroleum fueled devices are prohibited. (e.g., Fire Pits, Chiminea and tiki torches)*

## When Going Away

---

***For a worry-free time away, observe these few suggestions before leaving:***

Shut off main water valve, typically located in laundry closet – turn clockwise.

Open cabinet doors under all sinks to allow warmth to enter. This procedure will help avoid damage to water pipes resulting from low temperatures.

Shut off outside faucets when applicable and disconnect hoses during heating months. Failure to do this could result in damage to water pipes and possible flooding which will be repaired at owner's expense.

In electric units turn the circuit breakers for "Water Heater," "Electric Range," and "Electric Dryer" to off position.

It is recommended that minimum heating be maintained at 50 degrees during the entire heating season, especially during prolonged absences. Shutting your heating off completely will require your unit to be professionally winterized.

If going away for a week or more, disconnect all appliances. When emptied of food, leave refrigerator door ajar to permit circulation.

Unscrew and unplug all TV and stereo cables and electrical cords. This should also be done whenever there is an electrical storm to prevent a fire and/or damage to your sets.

Lock doors and windows, but do not lock storm doors.

Leave key with someone you trust who will check your home periodically, especially after a heavy rain or snowstorm.

Notify post office to hold or forward mail.

Telephone and water can be shut off by contacting the utility companies.

Notify newspaper delivery service one week in advance to stop delivery.

Place a tablespoon of vegetable oil in garbage disposal if absent for any length of time in order to protect the unit.

## Specifications and Permits

---

### Specifications:

To ensure the safety of common property and surrounding units and preserve the aesthetics and market value of units (Architecture committee charter), changes in or to units must be made in accordance with specifications approved by the Board of Trustees (By-laws, Article IV, Section 12). Changes must be made according to the specifications for the model.

There are specifications for changes to grounds, patios, windows and enclosures, doors, electrical, plumbing, HVAC and unit structures.

Specifications can be found on Frontsteps or obtained from the Association Office.

### LVWA Permits:

**There is no fee for LVWA permits. They must be obtained prior to the beginning of any work on a unit.**

**A resident may clean up and place small plants in the 5 foot area without a permit. Any work in or around a unit done by a contractor, in the 5-foot area, requires an LVWA permit. A permit is also required for work done in the 5 foot area by a resident that involves planting and removing bushes or removing trees. Any electrical, plumbing or structural replacements, alterations or changes made by the unit owner or resident or a contractor also require an LVWA permit.**

Renters must obtain owners' permission for work done in a unit as well as an LVWA permit.

For further information on what changes to units require permits, please see chart at the end of this section.

### **The LVWA permit process is as follows:**

1. Call the LVWA office and ask to apply for a permit. You will be required to describe the changes you want to make and provide the name, license, and guarantee of insurance of any contractor who will be performing the work. **A request for a permit does not mean your work is approved.**
2. Within 5 business days you will receive a call from an Architectural Committee inspector to set up an appointment in your unit.
3. The inspector will come to your home, review the work and issue the permit. You will sign and date the permit. Once the permit is issued and signed, work can begin.
4. When the work begins, post the permit in your front window so it is visible from the street.
5. When the work is completed, call the inspector listed on your permit and set up a time for a review of the work.
6. When the inspector has reviewed the work, they will sign off on the permit, pending the town inspection if required.
7. Keep the permit in your household file so it is available if you sell your unit.

**Township Permits:**

Township permits are required for some improvements, modifications, or repairs to assure that the work conforms to the New Jersey Uniform Construction Code. A contractor is responsible for obtaining the required permit. The unit owner or resident is responsible for scheduling the subsequent inspection by the township. There is a fee for Township permits.

Manchester Township permits are **required** for the following type of work and must be done by the appropriate licensed professional-- contractor, electrician, or plumber:

Any electrical work that involves installing new wiring, replacing or moving existing wiring.

Any structural changes to the interior of a unit

Visible additions which affect the usable floor area or increase the unit’s assessed valuation

Replacement of a water heater, plumbing fixture, furnace, air conditioner or wired-in major appliance.

**Consequences of Failing to Obtain Permits**

LVWA Permits: Failing to obtain LVWA permits may result in an architectural lien being placed on your unit. The lien would have to be removed before your house can be sold.

Town Permit: Failing to obtain Manchester Township permits places you in violation of town codes. The violations will have to be remedied before you sell your house.

## Common and Limited Common Area

---

Limited Common Areas are areas that are owned by LVWA but set aside for the exclusive use of the unit owner or resident. These include: the 5-foot area, patios, porches, porticos, driveways and walkways.

### The 5-foot Area

**WHAT IS REFERRED TO AS “THE 5-FOOT AREA” IS THE ORIGINAL SPACE ABUTTING THE UNIT, ALLOCATED BY THE BUILDER AND ARCHITECT AS A PERMANENT LANDSCAPED AREA.** The amount of space in this area by unit. It may not be planted with grass or otherwise removed by the owner. If a previous owner has removed the area or planted it with grass, the new owners must re-establish it as a permanent landscaped area. Responsibility for planting, edging, trimming, watering and otherwise maintaining the area is that of the owner.

To prevent water and termite damage, residents must maintain the entire area 2-4 inches below from the siding of the unit.

**Because there may be underground utility lines within this area, YOU MUST call for an underground mark out before doing any digging in this area. Call 811 or 1-800-272-1000 for this free service.**

### General Rules for the 5-Foot Area

**Note: If work in the area is being done by a contractor, you must obtain an LVWA permit.**

1. Residents **must maintain** their five-foot area, which may have foundation plantings, individual pots of plants, a limited number of decorative garden ornaments, mulch, stone, or gravel but may not have pavers, bricks, or grass, as ground cover.
2. Planting of low-growing bushes, shrubs, flowers, or ground cover is permitted in an area extending five (5) feet from the foundation of a unit and the area between unit walls and walkways.

The center of all bushes, shrubs, and Japanese Dwarf Maples must be at least thirty (30) inches from the unit foundation and all branches, etc., including **living** ground cover must be kept maintained and/or trimmed to at least twelve (12) inches from the unit siding to minimize damage to siding.
5. Planting in front of windows must be maintained to not exceed three (3) feet in height and preferably not higher than the windows. Plantings must not obstruct access to or from the window. Mature shrubs should be trimmed to leave the upper panes of windows unobstructed. The Japanese Dwarf Maple cannot be planted directly in front of windows.
6. Planting in front of solid walls must be maintained so as not to exceed five (5) feet in height and should be trimmed to a height where they do not brush against the siding or overhang gutters.
7. In order to prevent damage from rot, insect damage and/or mold, the entire five-foot area must be kept 2 - 4 inches below the bottom of any and all siding material, when possible. This includes the top of any groundcover, mulch, stones, gravel, edging material, etc., that are within the area. Edging material should not be higher than 6 inches above grade and parallel to the foundation/siding and must not block water drainage away from unit.
8. Stone or gravel groundcover must have edging material to maintain border to prevent lawn mowing hazards.
9. Borders if used, must not exceed six inches in height.
10. **Water shutoffs and sewer cleanouts must remain visible for emergency access.**

## Grounds Department Services

---

Condominium living allows residents to relax while someone else maintains the common elements. Grass cutting and other grounds work will be more efficient and prevent damage if hoses, lawn furniture and other objects are kept clear of the area. **Our personnel will not remove these items, and the Association will not be responsible for damage or replacements.**

A sprinkler system is in place to water the common area. Residents must call the Maintenance Department if any adjustment or repair is required.

Following are the services performed by the Leisure Village West Grounds Department:

- Grass Cutting
- Edging (once yearly minimum)
- Reseeding
- Weed control to be applied in the Spring
- Fertilizer (Spring and Fall application)
- Irrigation for the common areas (maintained as originally installed)
- Weekly debris pick up (December 1 - March 31: upon request only)
- Pruning of trees and shrubs that pose a hazard in the common area

**\*NOTE: Residents must not apply herbicides, pesticides, insecticides, fertilizer or poisons of any kind in the common area; residents will be held responsible for any resulting damage.**

## Storms and Weather

---

### *Snow- Preparation and Clearing Procedures*

**Improperly parked cars are the biggest problem during snow removal.** Remember: your garage or assigned parking is the only place to keep your car so snow-clearing equipment can operate. Residents with two cars must remove their second car from the street and driveway. Most of our clearing equipment is too large to clear a double driveway with a car on one side and are often left behind and cleaned up later when the smaller equipment is available; therefore, please keep driveways cleared. Snow removal on the main roads will start upon arrival of labor and equipment after a **two-inch accumulation**.

Driveways and single-entry units will be started after snowfall has stopped and main roads have been opened. Obviously, it is impossible to start every area at once so rotation of the starting place will be done. Your cooperation in observing a few suggestions will minimize any inconvenience.

Your cooperation is requested by remaining in your home as long as possible for your own safety until the snow clearing is complete. Tune in to Village Creeper Channel 970 for additional information.

### *Snow Clearing Order*

- Brine is applied to the roads prior to the impending storm
- Main roads are first
- Secondary roads
- Driveways and single-entry units (without garages)
- After the completion of all of the above and as time permits, sidewalks will be done throughout the village.

### *Snow Clearing Priority List*

If you receive dialysis or chemotherapy, you must submit a letter annually to LVWA from your treatment facility listing the days and times of treatments. Additional requests for Priority Clearing requests must be preapproved by the Community Manager and will require documentation supporting the requested priority service.

*Storm Preparation – See [www.ready.gov](http://www.ready.gov) for information and to sign up for email updates. Also check with Manchester Township for availability of services from them during storms.*

- Have a flashlight and/or emergency LED lanterns with fresh batteries. Even if you never use the flashlight, put in new batteries.
- A portable radio with new batteries.
- Bottled water – one gallon of water per person per day.
- A supply of ready-to-eat, non-perishable foods that will not need refrigeration after opening (e.g., peanut butter).
- If you open your refrigerator only for a few seconds, the cold should last 24-48 hours. The more things in the refrigerator the longer the cold will last.
- When a STORM alert is announced, be sure to have all your medications and other medical devices on hand.
- Shelter is made available where possible depending on conditions at our recreational facilities. The Association will provide availability and updates via all LVWA media.

## Procedure for Settling Disputes

Contact the Community Manager. If the Community Manager cannot resolve the dispute, contact the Association Office and ask for an ADR Hearing.

## Alternative Dispute Resolution (ADR)

---

Alternative Dispute Resolution is a method of providing an unbiased third-party body to assist and help in the resolution of disputes, thereby avoiding costly legal alternatives to seemingly minor matters. The ADR Committee is made up of resident volunteers.

The New Jersey Condominium Act, N.J.S.A. 46:8b-14(k) requires the Association to provide a fair and efficient procedure for the resolution of disputes between unit owners and the Association, and between unit owners, and between clubs as an alternative to litigation.

The Board of Trustees has authority to exercise all power, duties and authority necessary for the proper conduct of the affairs of the Association.

From time to time, in a unit owner's dealings with Village volunteer committees, LVW Association, or LVW Management, the unit owner is dissatisfied with decision(s) ultimately rendered; the LVW Board of Trustees has established a procedure whereby a unit owner may appeal such decision(s) or disputes in an orderly manner to an Alternate Dispute Resolution Committee.

Effective upon adoption of this Policy Statement and the annexed ADR procedure, the existing alternate dispute resolution process in Leisure Village West shall be terminated. Any pending matters shall be processed pursuant to this Policy and the annexed ADR Procedure.

### DISPUTES

1. An Alternative Dispute Resolution Committee is hereby established.
2. The Chair shall be a non-trustee resident selected by the Board of Trustees. The Chair shall have a two (2) year term of office and may be reappointed by the Board of Trustees. Any vacancy in the office shall be filled by appointment of the Board of Trustees.
3. The Chair shall recommend to the Board of Trustees, non-trustee residents to serve and/or be reappointed as Mediators for a two (2) year term.
4. The ADR process is informal and shall not be electronically recorded. A party may be represented by counsel. Any statements or testimony made by a party, witness or by Mediators shall not be evidentiary, for any purpose, in any subsequent legal proceeding.
5. Participation in the ADR process is entirely voluntary.
6. ADR Mediators may not provide legal advice.
7. There shall be no ADR held for the sole purpose of disclosing the name of the complainant in a particular instance and the name of the complainant shall not be released to any party and shall be held confidential.
8. There shall be no fee for the cost of an appeal under ADR.

### APPEAL

Any dispute between a unit owner, and the Association, or between unit owners, or between clubs relating to acts or omissions which may violate the Articles of Incorporation, the Master Deed, the Bylaws or the Rules and Regulations of the Association (collectively called "the Governing Documents") or otherwise related to the use

and ownership of a condominium unit in Leisure Village West, together with rights to utilize the common elements of Leisure Village West, may be submitted for a hearing to the ADR Committee, as provided in this Policy.

## PROCEDURE

In the event disputes arise between or among unit owners of the Village, or between a unit owner and the Association, or a club, it is our desire that these disputes be settled in an orderly and on an amicable basis. To accomplish this goal:

The disputing parties will contact the Association in writing.

Within ten (10) days after receipt of the letter of appeal, from the complainant, the Community Manager will forward such request along with all applicable documentation to the Chair of ADR.

The Chair, will contact all parties to the dispute to establish a date and time for the Conference. All Conferences shall be scheduled during business hours, Monday through Friday, excluding holidays.

The Chair shall designate three (3) Mediators to conduct the appeal. An alternate, mediator may also be designated. (The alternate will serve in the event any of the regular designees cannot complete their assignment).

The appeal shall be conducted in a fair and orderly manner. The parties shall have the opportunity to present facts and argument(s) both orally and/or in writing, and may present and examine witnesses.

The Mediator(s) shall consider all the facts and arguments presented and will attempt to mediate an amenable solution agreeable by all parties involved. A simple agreement letter shall be prepared that all parties can sign, memorializing the solution. In the event that the parties are unable to reach a settlement, the mediators shall then impose a non-binding arbitration settlement, in writing, within ten (10) calendar days of the Conference. The chair will notify the parties, in writing, confirming the non-binding arbitration reached, a copy of which will also be forwarded to the Association.

### Postponement of an ADR Conference:

If there is a need to postpone, all parties to the dispute will be promptly notified of the postponement.

The Complainant or other parties to the dispute may request a postponement of the conference if received in within 24 hours prior to the scheduled Conference to allow the Chair, ADR Committee, to reschedule the Conference.

If the request for postponement is received too late (i.e., within 24 hours prior to the scheduled Conference) In the event the appellant fails to appear at a scheduled ADR conference, and if and where possible, the conference will proceed. All documents, letters, arguments, written or oral, will be considered at this time.

There shall be no further administrative review from the mediation or non-binding arbitration of the ADR Committee.

When Association funds are involved, and in specific cases when deemed necessary, the Chair of the ADR Committee shall announce the recommendation or non-binding arbitration at a subsequent Board of Trustees meeting.
